

Penile cancer. I'd rather know the facts.

There are around 700 cases of cancer of the penis in the UK each year. It is most often diagnosed in men over the age of 60, although much younger men can also be affected.

Orchid raises awareness of penile cancer and supports men of all ages who are affected.

Don't ignore the facts. Learn more about the signs, symptoms and risk factors of penile cancer at www.orchid-cancer.org.uk
