

Over 55,000 people will be diagnosed with prostate, testicular or penile cancer every year in the UK.

Orchid exists to save lives from testicular, prostate and penile cancers through a range of support services, pioneering research and promoting awareness.

£10

could pay for a telephone call with an Orchid Nurse Specialist on our Freephone Helpline.

£20

could cover the cost of male cancer information being sent to 17 people following a male cancer concern or diagnosis.

£50

could cover a vital counselling session for those diagnosed with testicular or penile cancer.

£200

could cover a talk within the community about the risk factors, signs and symptoms of male cancer to promote early diagnosis.

# Thank you!

Orchid exists to save men's lives. Your support will help us fight male cancer.
