

Prostate Cancer.

Some things you should know.

Over 47,000 men are diagnosed in the UK each year. Prostate cancer affects 1 in 4 black men and the risk increases as you get older.

You may be more likely to develop prostate cancer if:

- You are aged 45 or above.
- Your father or brother has had it.

If you have any concerns or want more information speak to a Prostate Cancer Nurse on the Freephone Helpline number below. You can also visit our website www.orchid-cancer.org.uk.
